Handyman Service Menu: Services, Subservices and Pricing Models

Nov 3, 2026 · @Samuel Mireku

Seventeen service categories for the Ghana handyman app, each with its subservices, flow, pricing model and safety flags.

Legend and overview

Cedi price bands are set from real job data and kept in the ops pricing menu editor, so none are fixed here.

Legend

Code	Meaning
OD	On-demand flow: map, dispatch, escrow and release after confirmation
PR	Project flow: brief, itemized quotes, milestone payments
RC	Recurring: plan or repeat booking
Fixed	One menu price inside a band (for example ±15%)
Fixed + materials	Fixed labor price; materials itemized and approved in-app
Call-out + quote	Fixed call-out fee, then an in-app quote after diagnosis
Itemized quote	Labor and materials quoted line by line, paid in milestones
Hourly	Set hourly rate with a minimum charge
Plan	Per-visit or subscription price
Enhanced vetting	Skills quiz and a supervised trial job in that trade
Restricted	Enhanced vetting plus project tier: guarantor, and per-job insurance for larger jobs

Service	Jobs	Flow and price	Safety flags
Washing	Car wash at home	OD, Fixed	None
Mechanics	Mobile mechanic call-outs	OD, Call-out + quote	Traffic, tools
Starts	Battery jump-starts	OD, Fixed	Electrical
Tyres	Tyre changes	OD, Fixed	Traffic

Menu rules

- Each menu item states what is included and what is extra, such as materials, parts and disposal.
- Anything not on the menu becomes Call-out + quote, and the client approves the quote before work starts.
- Restricted and Enhanced vetting flags control which pros see each job, and feed the job-cap and claim-limit rules.
- The pricing menu editor in ops adds, retires and re-prices items without an app release.
